

MEKCO® Onsite Systems

by MEKCO® - A division of ConceptWorks, Inc.

Mobile, fully-integrated, plug and play systems, robustly constructed for a variety of work environments.

Benefits:

- Plug and play set-up.
- Sized to fit thru most overhead doors.
- Wireless compatible (zero signal attenuation).
- RF and cellular transparency.
- Sound reduction (approximately -22 dB or greater).
- Staff comfort provisions.
- Safety systems.
- Flame retardant materials.
- Security measures.
- System modularity and mobility.
- Durability and longevity.

Features and Options:

- Molded fiberglass reinforced plastic (FRP) walls and roof with white UV resistant gelcoat (other colors available).
- 30 Amps, 120/240 V - single phase (standard). Solar and generator-powered options are available.
- LED interior lighting (exterior LED lighting available).
- Fully insulated, 2-part polyurethane painted steel base (with carpeted option). Base is an optional feature.
- Multiple base pick-points available (other rigging options available).
- Convenience receptacles with USB charging integration.
- Safety features come standard (panic bar exit device, fire extinguisher, carbon monoxide detector, HEPA filtration).
- Integrated air-conditioning and heat (standard units are made for outside temperature ranges of 0°F – 90°F).
- R7- R21 insulated walls and ceiling (un-insulated options are also available).
- Office essentials (tailor-fit work station, chair, clock, and filing cabinet) can be included.
- Integrated solid-core paneling for shelving and other wall-mounted structure can be integrated.
- Programmable entryway lock (optional).
- Additive geometry for joining multiple MEKCO® Onsite Systems together.
- Wash-down capable.
- Made for interior and exterior applications (all units are hydro-tested prior to shipment).
- Knock-down options available.
- Built to withstand 35 psf snow loads and 25 psf wind loads (standard).
- Designed and Fabricated in Wisconsin, USA.

** All system features can be added or deducted – based on situational needs and configurations.
